

# TRANSFORMATION AND MAJOR CHANGE

## Delivery Capability Status (DCS) Toolkit

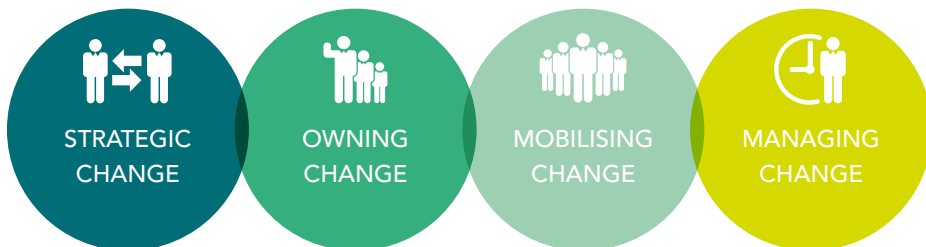

### Are you working on transformation and complex change?

### Does your organisation know its capability to deliver major change?

Use Local Partnerships' **Delivery Capability Status (DCS) Toolkit** to evaluate your delivery capability quickly and simply.

The DCS toolkit is a **free self-assessment** that will evaluate your organisation's capability to execute major change. Local Partnerships will work with you to identify how your organisation can improve its delivery capability.

This free self-assessment will provide an overview of where your organisation stands in relation to the following four areas:

### Additionally, facilitators from Local Partnerships can:

- ▶ help you complete the assessment
- ▶ review the results
- ▶ work with you to develop actions
- ▶ provide a written report

## **We support local authorities and other public sector bodies to deliver change programmes.**

We help you overcome the challenges you face:

- ▶ moving your organisation towards being advocates of good democracy, delivering value for money, with commissioning at substantially reduced costs
- ▶ redesigning your organisation to reflect the realities of major funding reductions by 2020, streamlining services and rationalising back office functions
- ▶ refining organisational working practices, reflecting the realities of digital transformation on customer and staff requirements
- ▶ improving strategic commissioning with the transfer of some responsibilities to customers, family and community groups, the third sector and existing and new providers
- ▶ redesigning how services work across multiple organisations
- ▶ rationalising and investing in buildings and digital infrastructure

Please visit [localpartnerships.org.uk/dcs-toolkit](https://localpartnerships.org.uk/dcs-toolkit) to complete your assessment
