

ONE DAY TRAINING COURSE: ACHIEVING VALUE FROM PFI CONTRACTS

Date: Wednesday 15 November 2017, 10:00 - 16:00

Location: 18 Smith Square, London, SW1P 3HZ

Local authorities and public sector bodies are over half way through a scheduled 40% cut in funding from central government. Public sector managers are faced with the need to secure savings and efficiencies from their operational PFI contracts whilst preserving service delivery.

How we can help

Local Partnerships supports local authorities and public sector bodies through reviewing operational PFI contracts. We support the public sector bodies in resolving contractual and operational issues with their PFI contract, increasing the commercial knowledge and understanding of PFI contracts throughout. We have worked with many government departments including the Home Office, DEFRA, DCLG, DfT and DfE and a wide variety of local government bodies. From this work we have developed a practical course to spread best practice and update contract managers on methods to realise efficiencies from their PFI contracts.

Key course outputs

Improving contract management skills helps to achieve better value. This training course will equip you with the tools to increase your knowledge, identify and implement savings, prioritise resources and maximise efficiencies across your contracts - a key objective for people throughout the public sector.

Who should attend?

Public sector contract managers, SROs, heads of finance and directors in charge of transformation.

Our Team

Our experts come from a range of backgrounds and include private sector experience. All have extensive exposure to PFI contracts in different parts of the public and private sector, across sectors and across ages of contracts

For detailed course information, please contact Rosie Pearson:
