

Delivering Transformation – the journey to new service delivery:

If you are planning to deliver savings, through new or alternative delivery models, you face some tricky questions:

- ▶ What are you trying to achieve?
- ▶ Which approach could best deliver your objectives?
- ▶ Do the numbers stack up?
- ▶ How do you develop your business case? and then your business plan?
- ▶ How do you manage the transition?
- ▶ Have you considered the impact on staff?

Local Partnerships facilitated an engaging process which gained maximum insight into our business and the way we do things... they were innovative and practical."

*Kevin Fordham, Deputy Managing Director,
Your Leisure*

Local Partnerships is jointly owned by

Wherever you are in the journey – whether starting out, or already decided upon a model – we can help you succeed
