

LOCAL PARTNERSHIPS

The public sector delivery specialists

How can we help you deliver better?

We have recently helped:

- ▶ A large authority ensure all elements of its transformation programme are on track
- ▶ Ensure a council-wide transformation programme is in the best possible position to succeed
- ▶ LEPs across the country to assess whether they have the right things in place to deliver their demanding Growth Fund allocations
- ▶ Two local authority trading companies from diverse sectors consider future business development opportunities
- ▶ An Enterprise Zone assess its strategic positioning and the delivery of one of its key projects
- ▶ A City Council assess its delivery (project and programme management) capability
