

# ONE DAY TRAINING COURSE: ACHIEVING VALUE FROM PFI CONTRACTS

## Introduction

Local authorities and public sector bodies are over half way through a scheduled 40% cut in funding from central government. Public sector managers are faced with the need to secure savings and efficiencies from their operational PFI contracts whilst preserving service delivery.

## How we can help

Local Partnerships supports local authorities and public sector bodies through reviews of operational PFI contracts for implementable savings. We have worked with many government departments including the Home Office, DEFRA, DCLG, DfT and DfE. From this work, we have developed a practical course to spread best practice and update contract managers on methods to realise savings and efficiencies from their operational PFI contracts.

## Who should attend?

Public sector contract managers, heads of finance and directors in charge of transformation.
